Helping Computer  
Users  
**FPCUG**  
& Our Community

## Who are we and what do we do?

The Fredericksburg Personal Computer Users Group was founded in 1987 to promote the knowledge and use of computers. Our mission has not changed but has evolved: we help people understand and use their computers, tablets and smart phones more effectively.

This is done through two methods: **General Meetings** held the second Thursday of each month and workshops that encourage and teach specific aspects of computing.

Workshops meet once a month at the Falmouth Volunteer Fire Department, 250 Butler Road, Fredericksburg, VA 22405

FPCUG workshop topics are:

- **Technology** - What's new
- **Windows 10** - All about the Operating System
- **Experimac Workshops** - Apple-Mac issues
  - Located at 1865-106 Carl D. Silver Parkway
- **Windows All** - Resolve Windows problems

You do not have to be a member to attend meetings or workshops

## But There's More

The FPCUG helps other non-profit organizations in our community by providing technical support, computers, and peripheral equipment. To fund this community service work, the FPCUG relies on membership fees of \$25 per year and unsolicited donations.
